50 Million Strong By 2029

What it ISN'T

50 Million Strong By 2029

HOW DO WE GET THERE??

Count Me In!

#SHAPE50Million

MORAL COURAGE

Moral Courage is about doing the right thing, regardless of the consequences.

Moral Courage in our Profession

Accepting that all children are worthy of
your:

PASSION
TIME
COMMITMENT

Moral Courage

- Moves our profession forward
- Convinces others of our value
- Allows for us to reflect
- Permits us to act ethically on behalf of all students

What is the major concern you have for your program?
Moral Courage is the *Cure*

Why is it so hard?

We believe:

- in maintaining strong relationships without conflict with others
- it takes too much time and emotion that we don't have to spare
- that challenging the status quo means *unleashing turmoil*

Why **MUST** we do this?

We believe:

- In protecting the integrity of our profession
- In protecting all students from ridicule or embarrassment in Health & PE class
- That all students deserve to be successful in Health & PE regardless of confidence or skill
- That all educators have a responsibility to be child-advocates

Remember to Celebrate

- We spend 90% of our energy on the 10% of people and situations that are going all wrong
- Take time to celebrate your outstanding achievements and share them with others.
- Be visible, thoughtful and helpful

Making a difference in the
lives of children is about
your beliefs

Be committed today to do
something to change just one
child's life

"Change-making is about falling in love with a new version of the future."

@Mark_Sanborn

“The only thing more powerful than knowing what to do is doing it.”

THANK YOU FOR ALL
YOU ARE DOING!!
